

## RRC06 'Conditional' Administrative Declarations between the Administrations of United Kingdom and Belgium

This agreement is the technical basis for the submission of reciprocal 'conditional' Administrative Declarations between the administrations of the United Kingdom and Belgium at the GE06 Regional Radio Conference between broadcasting services in Band III. It specifies the bilaterally agreed technical compatibility criteria and restrictions for implementation of the RRC-06 Plan entries listed below (column R2 of the Plan). The list consists of paired entries of which one or both may be affected by the restriction.

for the United Kingdom

for Belgium

### Plan entries where coordination is required by column R2

Belgium Plan Entry Name	Belgium Admin ref ID	BEL Ch.	UK Plan Entry Name	UK Admin Ref ID	G Ch.	Condition of the Agreement
-------------------------	----------------------	---------	--------------------	-----------------	-------	----------------------------

VLAANDERENDAB2	BELDABVG002	11A	ENGLAND II	G__60004	11A	see 'case D' below
----------------	-------------	-----	------------	----------	-----	--------------------

**Case D:** In case of protection of T-DAB in the Flemish Community, the maximum interfering field strength (1% time) at the border of the allotment is restricted to 37 dB $\mu$ V/m. United Kingdom accepts an implementation without restrictions of Reference Network 6 (RPC5) in case of T-DAB in the Flemish Community. In case of assignments, the cumulative FS of the assignments will not exceed these values.
